Hi Matt,

This is Dario Presezzi, CEO at Bioforcetech corporation.

I'm writing this email since Bioforcetech would like to request, to USEPA, an evaluation on a new sewage sludge pyrolysis process that our company is about to build and operate in Redwood City, CA.

We are currently in the process of getting a permit to operate with BAAQMD, but since the process is unique, we have been requested to contact USEPA.

Please find a letter attached that will explain the situation, and some additional data.

In addition, i would like to ask for a meeting with your office to better explain the situation in person. I'm available any day next week if that works for your office.

Thank you!

Best regards

Dario Presezzi
